SILHOUET

Slim. Scandinavian. Attractive

With its pure, inviting design Silhouet fits beautifully in the kitchens and bathrooms of today as well as tomorrow. Silhouet is the essence of timeless Scandinavian design and outstanding Damixa quality.

Unique features

Anti scalding, Eco save, Eco click, Rub clean and Cold start

Meet the designers: Halskov & Dalsgaard

Award winning Danish industrial design firm Halskov and Dalsgaard, established in 1990 by Christina Halskov and Hanne Dalsgaard, helped Damixa bring Silhouet to life. The duo's work is deeply rooted in the Danish/Scandinavian design tradition and integrates aesthetic and functional design. Halskov & Dalsgaard has designed products for, among others, Stelton, Holmegaard, IKEA, Coloplast and Sticks'n'Sushi.

The goal with Silhouet for Damixa was to create a simple, modern and appealing series of taps and mixers, Christina Halskov explains:

“The tap, whether for the kitchen or the bathroom sink, is a functional object as well as a design element in modern homes. We wanted to create a series of genuine, no-nonsense taps that are a pleasure to use in everyday life and will last for a very long time, both in terms of design and product quality.”

For the kitchen Silhouet's Scandinavian design and slim, modern outlook is the essence of Damixa's Danish design tradition. Even on the inside, Silhouet offers high quality and unique features making the taps functional objects as well as design elements in modern homes.

KITCHEN MIXERS

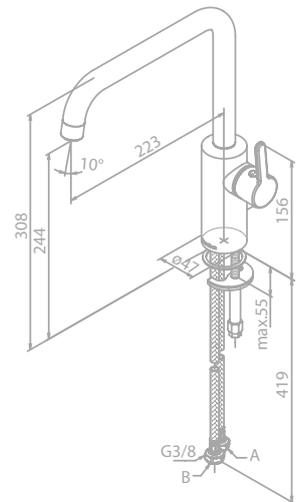

Kitchen Mixer

Product No.: 74086.00

Finish: Chrome

Standard Features:

- Ceramic cartridge
- 8 l/min aerator
- Swivel spout

1750 mm Easyflex silver shower hose

Standard Features:

- Standard 150 mm centers
- Wall plates & eccentric unions
- Integrated diverter

Note: Telescopic bar adjustable in height from 1020 mm up to 1250 mm.

SILHOUET'S UNIQUE FEATURES

ANTI SCALDING

Limits the movement of the tap head/lever to prevent accidental selection of "full hot" water.

RUB CLEAN

Easy removal of limescale from taps and shower heads without tools or chemicals. Simply rub a finger against the rubber surface to remove the limescale.

COLD START

Opens for cold water only when the lever is in starting position. Reduces unnecessary consumption of heated water and saves energy.

ECO SAVE

Saves water without compromising comfort. Activated and adjusted in the ceramic cartridge.

ECO CLICK

Designed to save water. You will feel a subtle resistance when opening the tap to avoid operation at full flow. Simply click past the point of resistance for more flow.

damixa

Reservations are made for any misprint, non-delivery, small variations in the appearance of products and sold out items.
